PROFESSIONAL SUMMARY

Dedicated and analytical Computer Applications graduate (BCA) currently pursuing a Master of Computer Applications (MCA). Focuses on IT systems administration, Microsoft Windows Server management (Active Directory, GPO, DNS, DHCP), virtualization, and computer hardware diagnostics. Enthusiastic about applying academic knowledge to solve real-world problems and configuring secure, optimized systems. Possesses hands-on project experience in full-stack web development (React, JS, Python) and cybersecurity testing workflows (Burp Suite, Nmap).

CORE COMPETENCIES & SKILLS

- Server & Infrastructure Administration:** Microsoft Windows Server (2022/2025), Active Directory Domain Services (AD DS), Group Policy Objects (GPO), DNS & DHCP configuration, IIS Web Server setup, Virtualization (VMware).
- Hardware Operations & Diagnostics:** Custom PC Assembly & Maintenance, PC Hardware Troubleshooting, Diagnostics Stress Testing, System Imaging, Data Backups & Recovery Workflows.
- Web Development & Databases:** React, Vite, HTML5, CSS3, JavaScript (ES6+), PHP Server-Side Scripting, Python Development, Firebase Firestore, MySQL Database Design.
- Cybersecurity & Automation Tools:** Ethical Hacking Fundamentals, OWASP Top 10 Web Vulnerability Testing (XSS, SQLi), Burp Suite Interception, Nmap Network Scanning, PowerShell & Batch Scripting.

TECHNICAL PROJECTS

- amc_auti (Annual Maintenance Contract System)** Python, Firebase, SQLite
- Developed a desktop-based automation system to manage customer contracts, asset lifecycles, and maintenance dates.
 - Implemented SQLite for fast local transactional data caching and Firebase for automated cloud synchronization.
- remotevmware (Remote Virtualization Controller)** Vite, React, Tailwind CSS, Python, Firebase, SQLite
- Built a virtualization controller application to configure and monitor VMware virtual machines remotely using a Vite-powered React and Tailwind CSS frontend dashboard.
 - Configured a secure client-server command queue architecture utilizing Firebase real-time database and Python daemon scripts.
- attandsalarymanagement (Attendance & Salary Management)** Vite, React, Tailwind CSS, Firebase
- Developed a responsive web application to track employee attendance and automate monthly salary computations.
 - Configured a Firebase database backend to manage employee profiles, check-in timestamps, and dynamic payroll records.

CERTIFICATIONS & COURSES

Certified in: PC Maintenance (Hardware & Assembly), IBM Cybersecurity Fundamentals (Coursera), Introduction to Cybersecurity Essentials, Network Security & Threat Vectors, Networking Basics & Routing Protocols, Python Bootcamp & Scripting Fundamentals, React Frontend Development Training, ChatGPT Bootcamp & Prompt Engineering

EDUCATION

- Master of Computer Applications (MCA)** 2026 - Present
Pursuing Graduate Studies • Focus on Advanced Computing
- Bachelor of Computer Applications (BCA)** 2026
Veer Narmad South Gujarat University (VNSGU) • Graduated
- Higher Secondary Certificate (HSC - 12th Grade)** 2023
Shree Vasishtha Vidhyalaya • Commerce Stream • Score: 56%
- Secondary School Certificate (SSC - 10th Grade)** 2021
Shree Vasishtha Vidhyalaya • General Studies • Score: 65%

LANGUAGES & PERSONAL DETAILS

Languages: English, Gujarati, Hindi | **Website Portfolio:** <https://heerpatel.online>
